1977 Article Index

Management

The Computer—Management's Most Effective Production Tool, Jan. p. 16
Making Time Standards Work on Short Runs, James Sullivan, Feb. p. 16
Pride of Craftsmanship Program Gets Results at McCulloch, John C. Heinz, John H. Holthaus, Wayne T. Johnson and Robert W. Johnston, Mar. p. 16
Surprise Benefits From Assembly Training, Myles Marcovitch, Apr. p. 24
Will the U.S. Keep Its Productivity Lead? May p. 18
Profit Sharing Pays Off at Century Mfg. Co., June p. 24
Computer Programs and Time Sharing . . . Keys to Big Savings, July p. 14
Tagging Defects Improves Quality, Saves Millions, Aug. p. 16
New Manufacturing Management Saves $ Millions, Sept. p. 24
Is Management Wasting Its Most Important Resource? R. William Bertha, Oct. p. 24
Advice from a Manager to a Young Supervisor, Roderick Wilkinson, Nov. p. 18
Are Your Work Standards Effective? Charles F. Hibbard, Dec. p. 12

Ideas and Developments

Computer-Printed Tags Save 8000 Manhours/Year, William Rauscher and John Criscione, Nov. p. 22

Design/Fastening/Joining

Small Changes Produce Big Savings, Jan. p. 22
Metric Fasteners . . . Which Should You Use? J. B. Levy, Feb. p. 22
Making Fastened Joints Reliable . . . Ways to Keep 'em Tight, Edwin Rodkey, Mar. p. 24
Anaerobic Gaskets—Formed-in-Place Problem Solvers, J. William Paris and Charles Costa, Apr. p. 34
Ultrasonics Produces Strong, Oxide-Free Welds, Florence R. Meyer, May p. 26
Some Notes on Tightening Threaded Fasteners, Bengt Westerlund, June p. 34
Mr. Engineer . . . Beware of Adhesives Tables and Charts, Bernard Gould, July p. 20
Taking the Confusion Out of Adhesives, William M. DeCrease, Aug. p. 24
Fastening System Improves Quality and Reduces Cost, Sept. p. 34
We'll Only Get This Chance Once . . . Part 1: Modern Metric Hardware—Simpler and Better, E.R. Friesth, Oct. p. 36
At Last—A Single System of Metric Fastener Standards, Richard Belford, Oct. p. 41
We'll Only Get This Chance Once . . . Part 2: Renaissance in Wrenching, E.R. Friesth, Nov. p. 24
We'll Only Get This Chance Once . . . Part 3: Design Procedures and Failure Mode Analysis, E.R. Friesth, Dec. p. 18

Ideas and Developments

Heavy-Duty Retaining Rings Simplify Linkage System, June p. 38
It'll Never Get Off the Ground But It's Headed Out to Sea, Aug. p. 22
Structural Adhesive Bonds Ceramic Magnets to Steel, Sept. p. 30
Wrist Device Has Multiple Functions, Sept. p. 30
Stainless Steel Inserts Solve Galling Problem, Sept. p. 35
The "New Look" in Cold Heading Machines, Oct. p. 30
Clad Metals for Brazing, Nov. p. 33

Electrical/Electronics Assembly

1977, A Good Year to Reduce Wiring and PC Assembly Costs, Jan. p. 30
How to Pinpoint IC Solderability Problems, Gert Becker, Feb. p. 30
N/C Laser Soldering, Fast—Low Cost—No Rejects, J.R. Loeffler, Jr., Mar. p. 32
Tomorrow's Assembly System Here Today, Terrence Thompson, Apr. p. 44
Teamwork Puts It All Together and NCR Saves Millions, Terrence Thompson, May p. 34
Condensation/Vapor-Phase Reflow Soldering, Terrence Thompson, June p. 44
Cable Mounting Problems? Terrence Thompson, July p. 26
Solderless Wire Wrapping—Fast, Reliable and Economical, Part 1, Jerry Potochnik, Aug. p. 28
Solderless Wire Wrapping—Fast, Reliable and Economical, Part 2, Jerry Potochnik, Sept. p. 40
Leadless Device Reflow Soldering Is Reliable and Lowers Assembly Costs, Fred R. Pinner, Oct. p. 50
Fast, Low Cost, Semiautomatic Component Insertion Machines, Terrence Thompson, Nov. p. 36
Automatic Wire Harness/Cable Forming Boosts Productivity 16:1, Terrence Thompson, Dec. p. 24

Ideas and Developments

Antistatic Protection for IC Assembly Operations, Nat Wood, Oct. p. 56
Cable-to-Chassis Connector Strain Relief for PCB Assemblies, Nov. p. 40
Flow Solder Pallet Coating Saves Time, Money, Nov. p. 42

Assembly Systems

15 Approaches to Improving Assembly Productivity, Jan. p. 38
Assembly Engineering Visits Fiat, Feb. p. 36
Computer Tool Control System Offers Many Advantages, Renzo Bontempo, Mar. p. 38
Can't Afford That New Machine? If You Can't Buy—Lease, Matthew Colsanti, Apr. p. 54
Hydra-matic Combines Technologies to Improve Efficiency, May p. 44
Need a Brazing Machine? Words to the Wise . . . Bruce R. Williams, June p. 54
External Tracks for Vibratory Bowl Feeders, Lee Kallsen, July p. 34
Reduce Costs by Assembling Oddball Parts with Standard Riveters, Edward M. White, Aug. p. 34
Assemblex '77, Sept. p. 50
Pneumatics Plays Vital Role in Semiconductor Production, Oct. p. 58
Mechanized Workers Take on the Lousy Jobs, Nov. p. 44
Dedicated CAM at Honeywell Pays Off, Dec. p. 32

Ideas and Developments

Shop Air Lines—A Safety Checklist, Mark Kugelman, Feb. p. 40
Cold-Formed Part Saves $30,000/Yr, Feb. p. 42
Tool Status Reporting System Saves Time and Money, Mar. p. 42
Tough Plastic Bearings Make Better Controls, June p. 61

Down the Line

Instant Replay Spots Machine Fouls, Feb. p. 80
Introducing Bill Bertha, Mar. p. 88
Moon Rock Samples—a little dab'll have to do ya! Apr. p. 102
The Carrillo Connection, May p. 87
Water-Winged Ride—Smoooth, June p. 112
Signal Watching, July p. 64
Ford—A Corporate Septuagenarian, Sept. p. 118
Work That Heals, Oct. p. 96
Woven Wire Goes Medical, Nov. p. 88
The Toy That Makes Toys, Dec. p. 64
